SCDOT Continues work on the Sawmill Branch Walk/Bike Trail, as part of the Berlin G. Myers Phase III Project

SUMMERVILLE, S.C. (Tuesday, February 14, 2023) – The South Carolina Department of Transportation (SCDOT) in conjunction with the Town of Summerville and the Dorchester County Transportation Authority (DCTA) continues work on the 3rd phase of the Berlin G. Myers Project.

A temporary 3-day, 72-hour closure of the Sawmill Branch Walk/Bike Trail between Luden Drive and the pedestrian bridge at Willet Drive (shown in red on the map below) will be required between Monday, February 20, 2023, and Wednesday, February 22, 2023. Construction crews will be working on crossline drainage pipes beneath the existing trail and constructing a small section of detour trail near Luden Drive.

Variable message boards will be placed at either end of the trail to give advanced warning of the closure to pedestrians. The trail from Luden Drive to Crosscreek Drive and from Willet Drive to East Richardson Avenue will remain open and may still be used (shown in green on the map below).

The safety of the traveling public is of the utmost concern. Construction crews will work diligently to complete this work and reopen the trail for the Town's recreational use as quickly as possible.

For more information on the project, please visit: [Berlin Myers Parkway Phase III in Dorchester County | SCDOT Public Comment Projects \(arcgis.com\)](https://arcgis.com)
